

PAS 660 : Family Practice Rotation 1

This is four-week primary care experience under the supervision of a community-based primary care setting is designed to acquaint the student with those aspects of the practice of medicine unique to the community setting. The student works with the preceptor in each of the settings the preceptor works. These locations may include the hospital, the office, long-term care facilities, and other areas. If inpatient experience is available with the preceptor's practice, the student makes rounds with the preceptor and assists him or her in fulfilling his inpatient responsibilities. In the office the student learns about management procedures in a medical practice and helps the preceptor by providing services consistent with his or her individual background and clinical training. Students will observe the team practice concept of health care.
